PROFESSIONAL SUMMARY

Product Owner with end-to-end ownership of multiple B2B SaaS products at soivity GmbH (Catena-X ecosystem). Combines hands-on agile delivery with customer-led growth thinking — from product discovery and roadmap planning through activation, feedback loops, and stakeholder enablement. Hands-on with AI-driven product development, rapid prototyping, and data-led decision making. Master's graduate in Business Intelligence & Data Science from ISM Dortmund. 4+ years of enterprise SaaS experience across North America and APAC, giving a strong customer empathy and go-to-market foundation.

CORE SKILLS

Product & Growth: Product Discovery, Roadmap Planning, PRD Writing, User Stories, Acceptance Criteria, UAT, Agile/Scrum, Sprint Planning, Stakeholder Management, Activation & Onboarding, Customer Feedback Loops, Adoption Metrics, Sales Enablement

Data & Analytics: Power BI, Amplitude, PostgreSQL, KNIME, Excel, Python

Tools & Platforms: Jira, Confluence, Monday.com, Miro, Figma, GitHub, Salesforce, REST APIs

PROFESSIONAL EXPERIENCE

Product Owner | soivity GmbH

Apr 2025 – Present | Dortmund, Germany

- Own end-to-end product discovery, delivery, and feature enhancement for multiple B2B SaaS products within the Catena-X automotive data-sharing ecosystem
- Built a 0-to-1 internal sales intelligence platform that aggregates data from support tickets, HubSpot customer meetings, and product feedback channels — surfacing churn signals, recurring confusion patterns, and upsell opportunities as actionable dashboards for the commercial team
- Leverage Claude and LLM-based workflows for rapid prototyping, solution exploration, product spec generation, and backlog refinement as part of the discovery cycle
- Lead AI integration initiatives across products, including intelligent data matching, automation flows, and recommendation engines in collaboration with data science and engineering teams
- Define and track product KPIs including feature adoption, activation milestones, and engagement metrics; align roadmap with leadership and key stakeholders on business outcomes and go-to-market strategy
- Write detailed user stories, epics, PRDs and acceptance criteria; run refinement sessions, support UAT, and collaborate hands-on with developers on API design and architectural decisions
- Partner with sales, marketing, and customer-facing stakeholders on positioning, demo flows, and product narratives to support GTM execution and pitch enablement

Product Growth | Katalon

Oct 2022 – Nov 2023 | Ho Chi Minh City, Vietnam

- Owned a portfolio of 200+ enterprise accounts and 20 global system integrators for a low-code test automation and DevOps SaaS platform; consistently exceeded pipeline and revenue targets
- Worked closely with solution engineers and product teams to deliver technical demos and POCs — translating customer use cases into product-fit conversations and feeding recurring objections back to product
- Drove the AWS partner program engagement in India by 20% through targeted ABM campaigns and ecosystem events, sharpening positioning and outbound playbooks based on response data

Product Growth | Data Dynamics

Dec 2021 – Oct 2022 | Pune, India

- Built outbound sales and pre-sales motion from scratch for a new team selling cloud migration, data governance, and compliance solutions as a Microsoft Azure channel partner
- Designed and developed Power BI dashboards to track funnel performance, sales velocity, and conversion drop-offs — used by leadership to prioritize accounts and resources
- Drove upsell and cross-sell motions across multi-billion-\$ healthcare accounts; partnered with product and solution teams to position relevant capabilities to enterprise buyers

Product Growth | Happiest Minds Technologies

Feb 2021 – Nov 2021 | Bangalore, India

- Engaged North American C-level executives on digital transformation, AI/ML, IoT, and cloud solutions through structured outbound and account-based motions

- Partnered with marketing to test and refine data-backed product positioning and messaging strategies across target verticals

Product Growth | *eInfochips (an Arrow Company)*

Jun 2020 – Jan 2021 | Pune, India

- Acquired new enterprise accounts in US, Canada, and Europe; built multi-million-dollar pipeline for AI/ML, cloud, and data analytics services
- Positioned technical services to Fortune 500 CTOs and CIOs through consultative outreach

Business Development Executive | *Transparency Market Research*

Feb 2019 – Jun 2020 | Pune, India

- Full-cycle sales of market intelligence and research services across the Americas; consistently overachieved revenue targets through proposals, cross-selling, and new logo acquisition
